INTRODUCTION

This repair guide will help to remove the backplate of the Lenovo Thinkpad Edge E520 which is essential to repair the inner components of the laptop.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Back Plate

- Flip over the laptop and position it with the battery being furthest away from you.
 - Remove the four screws on the edges of the T-Shaped plate with a Phillips #0 screwdriver.
 - Remove the T-Shaped plate from the back of the computer. It should come off easily if all four aforementioned screws are removed.
- i** Screw length 6.35 mm, head 3.175 mm

To reassemble your device, follow these instructions in reverse order.
