

How to Repair a Frozen Garmin Fenix 2

Fix your Garmin Fenix 2 Watch in case the display is frozen or you seem to have corrupted the software (or Firmware) on the device.

Written By: jonathanvarunbenjamin

INTRODUCTION

You need a PC (Windows) and the USB Cable of your watch to go ahead with this RESET procedure.

Please follow this link for a PDF & the required software from Garmin to reset the watch.

Please click on this link - bit.ly/Fenix2jon

It will lead you to a folder in my Google Drive.

Please read the PDF file you'll find in the Folder > It explains the process of resetting the FENIX-2.

Also, please DOWNLOAD the ZIP file in the Folder. You'll need it.

Please let me know how it went!!

All the best.

best regards,

Jonathan Benjamin.
