

Asus ROG G56JK Back Panel Replacement

This guide will show you how to remove the back panel of your Asus ROG G56JK.

Written By: Brandon Wells

INTRODUCTION

Replace a broken or damaged back panel.

Before starting on this guide, unplug the laptop from its charger and turn the laptop off.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Back Panel

- Unscrew the four 4mm screws using a Phillips #0 screwdriver.

Step 2

- Flip the computer right side up and start to lift the keyboard. The keyboard/back panel should come off.
- ⚠ Do not force the keyboard/back panel off. This could damage internal components and bend the keyboard.

To reassemble your device, follow these instructions in reverse order.
