INTRODUCTION

Is your Shark ION Robot S87 battery draining quickly or not charging? This is because batteries have a life span which decreases with every charge. If that is the case, you may need to replace the battery.
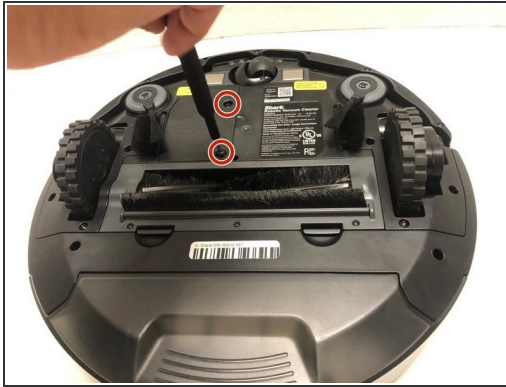

🔧 TOOLS:

- Phillips #1 Screwdriver (1)

⚙ PARTS:

- Shark ION S87 Battery (1)

Step 1 — Battery

- Flip the device so its underside is facing up.

- Use the Phillips #1 screwdriver to remove the two 14mm screws.

- Once you have removed the screws, open the battery lid.

Step 2

- Hold both sides of the battery using the plastic tabs.

- Use the plastic tabs to pull the battery out.
