## INTRODUCTION

If your Razer Blade RZ09-0130 2015 back panel is damaged and needs replacement or you need access to the laptop's circuitry, please follow this guide. This is a crucial step if you want to replace any other component within the laptop. A T5 Torx screwdriver is the only tool required for this procedure. Do not attempt to pry off the back panel with another object as it should come off with little resistance.

### TOOLS:

- [T5 Torx Screwdriver](#) (1)
-

## Step 1 — Back Panel

**⚠** Be sure to power off the device before beginning.

- Use a Torx T5 screwdriver to remove the ten 3 mm screws along the edge of the back panel.

## Step 2

- Remove the back panel from the laptop by sliding it away from the hinge.
- ⓘ This device is missing the battery. Make sure to detach the battery connector before proceeding with laptop repairs.

To reassemble your device, follow these instructions in reverse order.
