Dell Inspiron 3552 Memory Module Repla…

## Step 1 — Removing the battery

- Close the display and turn the computer over

- Slide the battery-release latch to the unlocked position

- Lift the battery at an angle and remove the battery from the battery bay.

- Turn the computer over, open the display, and press the power button for five seconds to ground the system board

Step 2 — removing memory module

| 1 | memory module | 2 | securing clips (2) |
| 3 | memory-module slot | | |

- Using your fingertips, spread apart the securing clips at each end of the memory-module slot until the memory module pops up.

- Slide and remove the memory module from the memory-module slot.
