

# Mantis Tiller 7566 2017 Carburetor Assembly Replacement

Written By: Trevor A

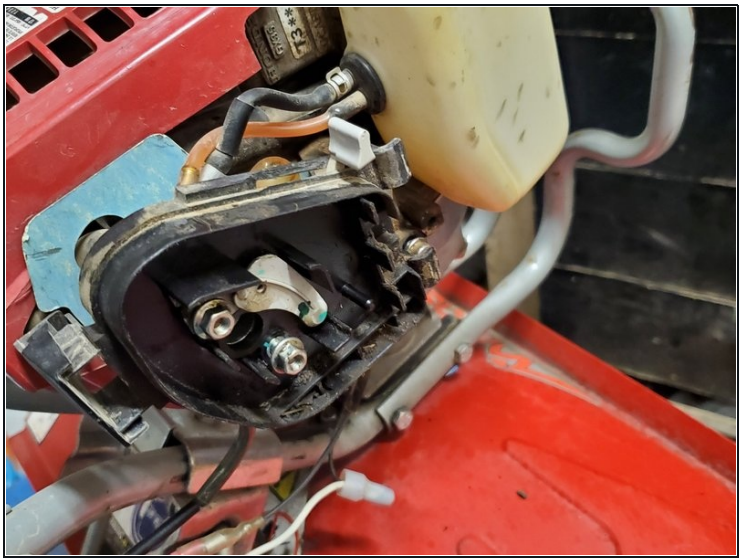

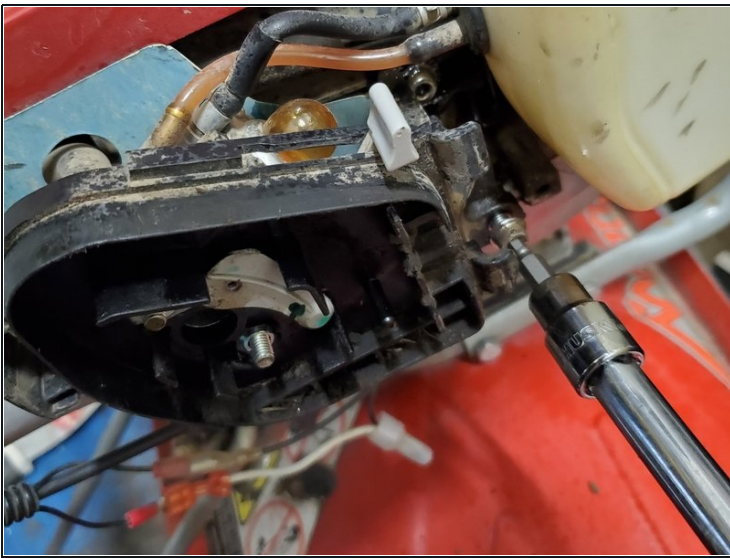

## Step 1 — Carburetor Assembly

- Remove the air filter cover.

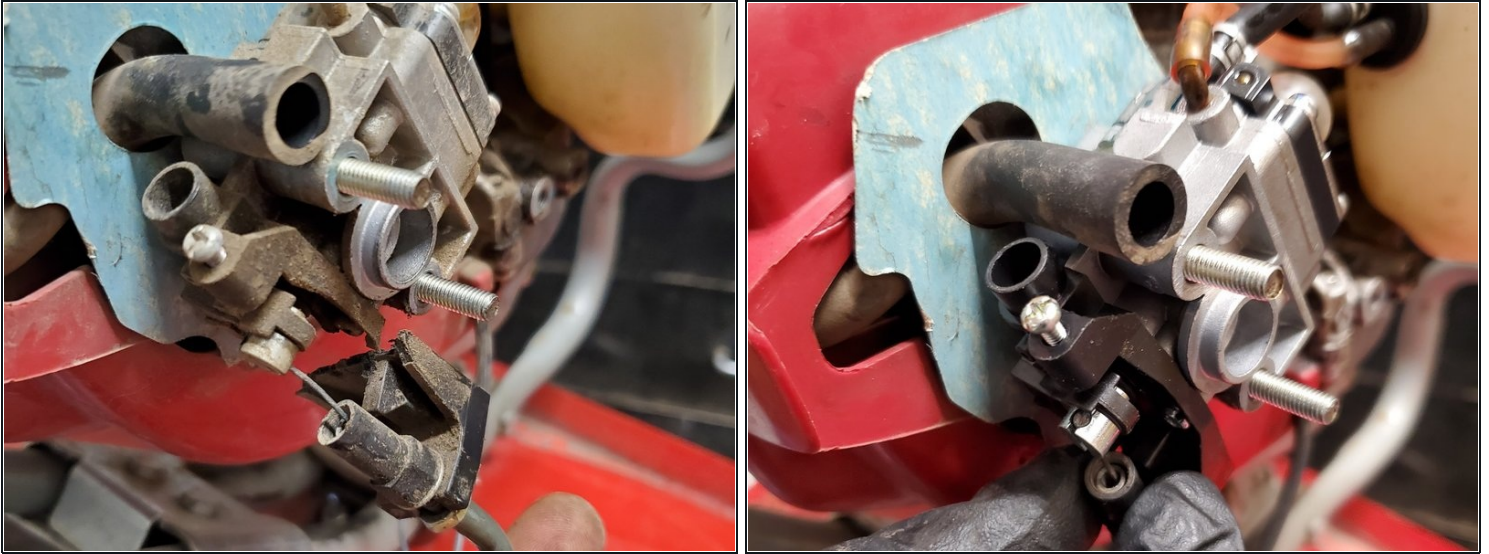

## Step 2

- Remove two 5/16 standard nuts under the air cover.
  - Remove the last two bolts pictured with a 5/32 Allen wrench.
- ⓘ Note the order you remove the bolts. The top is usually longer than the bottom.

### Step 3

- Remove old carburetor and install the new one. Remove the throttle cable and reinstall with needle nose pliers. Tighten throttle cable to carb part #16100-Z0Z-034

### Step 4

- Reassemble and test throttle.

To reassemble your device, follow these instructions in reverse order.
