

Toshiba Portege M400 Hard Drive Replacement

Written By: Lucas

TOOLS:

Pro Tech Toolkit (1)

Step 1 — Hard Drive

- Use a Phillips screwdriver to remove the two screws securing the hard drive cover.

Step 2

- Gently lift the plastic cover from the back case and slide it out from its position.

Step 3

- Gently lift the plastic tab and carefully remove the hard drive from its socket.
- You are done!

To reassemble your device, follow these instructions in reverse order.
