

HP Pavilion Sleekbook 15-b142dx Hard Drive Replacement

Replacing hard drive with a new one can allow for more storage space and faster processing speeds.

Written By: Rashed

INTRODUCTION

By using the following tools and the following the steps below, you can simply remove your hard drive from your HP Pavilion Sleekbook and replace it with a new one.

TOOLS:

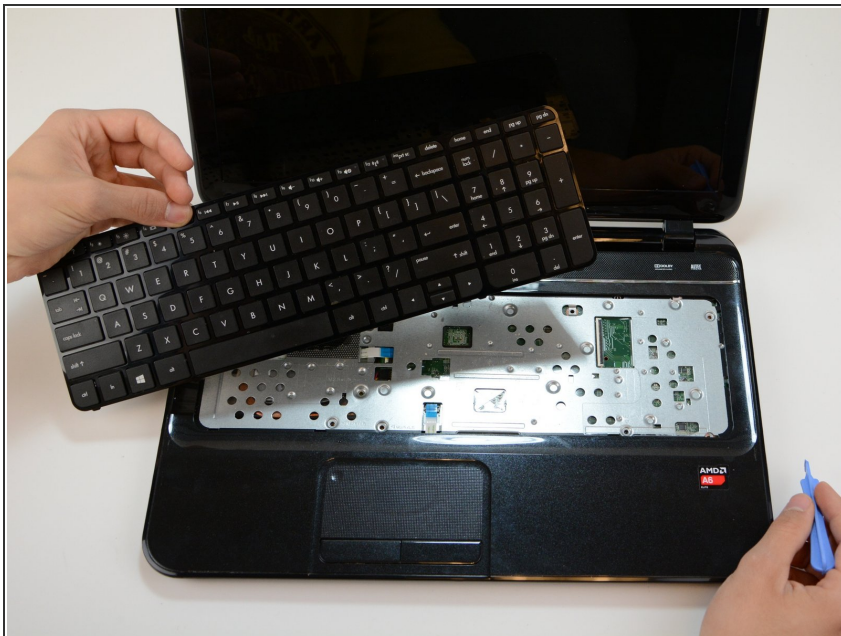

- [Phillips #0 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Removing Keyboard

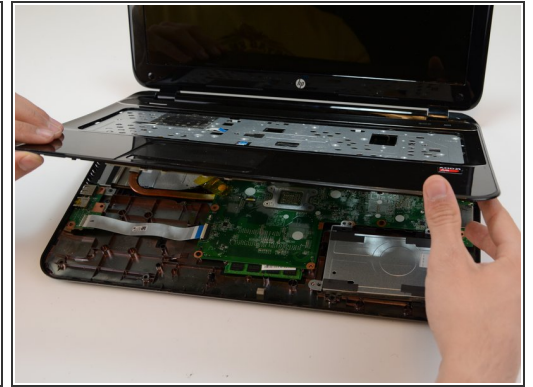

- Open the laptop and locate the keyboard. Identify the borders of the keyboard.
- Taking plastic opening tools in hand, carefully and gently pry open the outer perimeter of the keyboard.

Step 2 — Replacing Keyboard

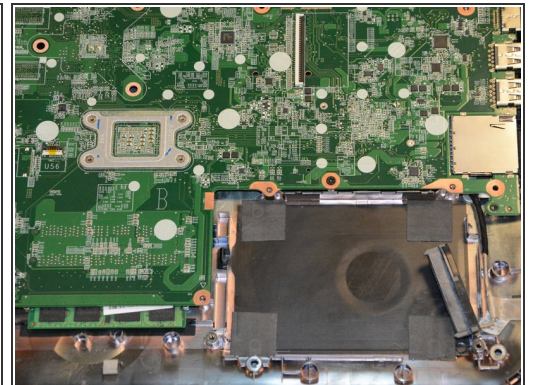

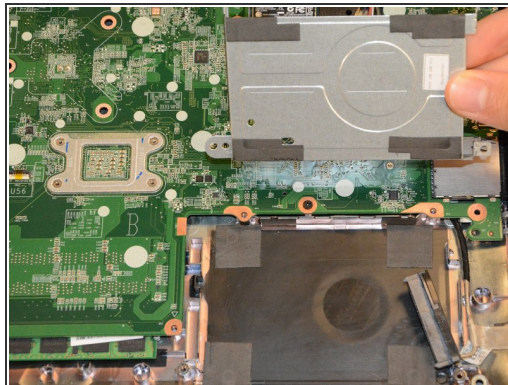

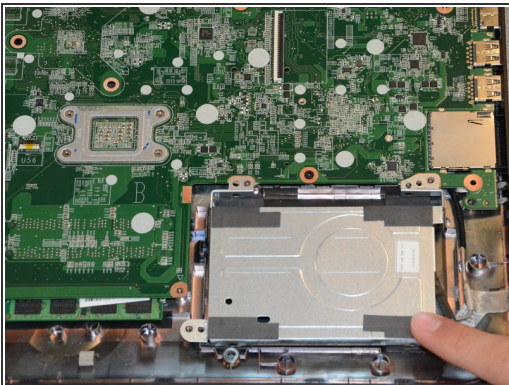

- Once part of the keyboard has popped up, continue to lift the keyboard until it is removed.

Step 3 — Hard Drive

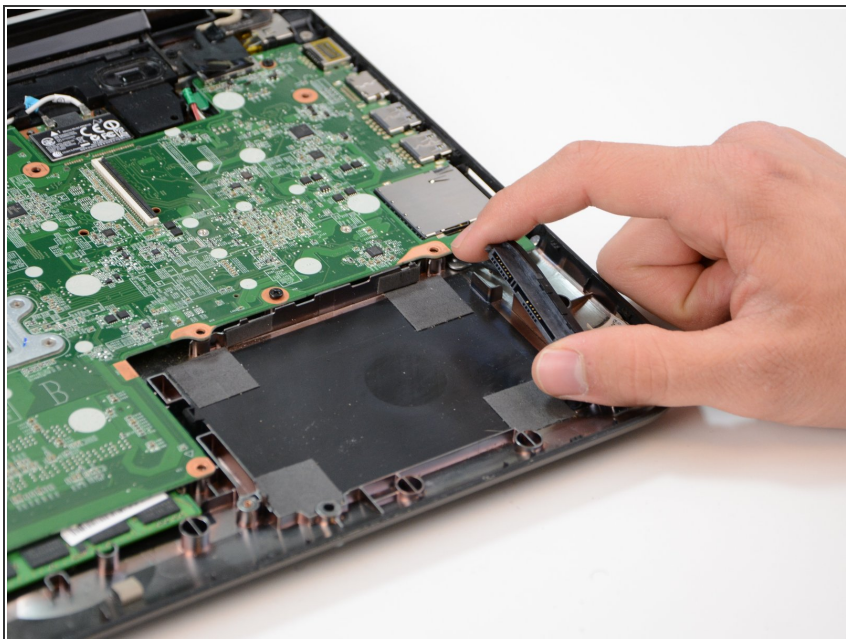

- Pop out the black frame found underneath the keyboard using the plastic opening tools.
- Once the frame is popped out continue to lift the frame gently.

Step 4

- Locate and remove the silver hard drive cover in the bottom right corner.

Step 5

- Detach and remove the hard drive from the black plug located to the right of the hard drive.

To reassemble your device, follow these instructions in reverse order.
