Step 1 — Battery

⚠️ Working on your device while it is turned on may result in electric shock. Make sure to shut down and unplug your device before you begin.
● Slide the latch, to the right, away from the lock symbol.

● Slide the cover away from the latch to remove it.

Step 2

● Once the cover is removed you will be able to see the battery and the two latches that hold it in place.

● The two latches should be pulled back, one of which is spring loaded and must be held in place in order to remove the battery.

Step 3

- Battery should easily be lifted up and out.

To reassemble your device, follow these instructions in reverse order.
