INTRODUCTION

PREREQUISITE

🔧 TOOLS:

- iFixit Opening Tools (1)

www.iFixit.com

Step 1 — Alldaymall A88X Back Cover

- Using a plastic opening tool, carefully pry the device apart. Make your way around the entire perimeter of the device and carefully place the two panels next to each other.

- ⚠ After the panels are separated, watch out for the speaker on the rear panel as it's wire is rather short.

- ⓘ When separating the panels keep an eye out for the power button and volume rocker as they can be dislodged.

Step 2

- Grip the speaker from the sides with your fingers or a pair of tweezers and slowly begin to remove it from the rear panel.

- ⚠ When removing the speaker, make sure not to disconnect the wires in any way.

- After the speaker has been removed, place the rear panel aside.
